

TA- FAC1000B

Face Recognition Access Control TA-FAC1000B provides AI-powered dynamic facial recognition, multi-mode authentication, and a single-door solution suitable for offices, educational institutions, healthcare facilities, and industrial sites. It ensures fast, accurate, and contactless verification with face biometrics.

Specifications

Brand	ThingsBolt
Model	TA-FAC1000B
CPU	800M single-core ARM Cortex-A7
NPU	800G (0.8T) Hashrate
RAM	256M DDR3L
ROM	4G eMMC
Camera	1MP color + 1MP infrared
Screen	4.3 Inch Touch Screen
Live Detection	Dynamic dual-camera anti-spoofing
Logs Capacity	500,000
Verification	Face, Fingerprint, Password, ID/IC Card (optional)
Brand	ThingsBolt
Model	TA-FAC1000B
CPU	800M single-core ARM Cortex-A7
